St. Gregory School: School Update: Greatness in Academics: At St. Gregory Catholic School, it is our goal to meet the needs of all our students and increase academic achievement by providing rigorous, relevant, and engaging learning experiences. Teachers are committed to meeting the individual needs of all students and supports are in place to meet this goal including data-driven instruction, MTSS, and SIT plans. Teachers utilize the STAR and DIBELS assessments to assess and monitor students in the areas of Math and Reading. Students receive small group instruction during MTSS (Multi-Tiered Systems of Support). Groups and instruction are based on formal and informal assessment results. If students are not making the academic growth necessary, teachers will refer them to SIT (Student Intervention Team). The SIT will put together structured goals and interventions for the students and monitor student growth.
